 A Nationwide Comparison
 Issued November 2007
 Government of the District of Columbia, 2006 data.

Tax component consists of income, property, sales and auto. The complete study can be found at:

* This study assumes that the family with an income of \$25,000 does not own a home (and as a result does not pay property tax) but instead rents. A "property tax rent equivalent" assumes that 20% of rent goes toward property tax.
