Wyoming Taxpayers Association
Since 1937, the Wyoming Taxpayers Association (WTA) has been educating and informing its members and the public about sound fiscal policy; providing state and local policymakers with unbiased analysis of public expenditures and taxation; and promoting efficient and effective government through a wide dissemination of reports and analysis. WTA members represent a broad spectrum of Wyoming’s economy including, but not limited to farmers, ranchers, mineral producers, pipelines, banks, railroads, hotels and motels, transportation companies, and of course, the individual taxpayer. Everything we do centers around our mission of advocating sound tax policy for a healthy Wyoming economy. WTA believes that Wyoming’s tax structure should meet the tests of the Cornerstones of Taxation. The Cornerstones address the following policy concepts: Justification, Equity, Balance, Stability and Transparency.
